

**INNOVATIVE
SOLUTIONS FOR
A SAFER WORLD**

About Our Company

A Pioneer in the Security Industry

Established in 1997, IMRON Corporation stands as a premier provider of Security Management and Access Control solutions across diverse industries. Our leading product, UnityIS®, is a web-based solution renowned for its seamless integration with the industry's most reputable hardware brands, covering wired access control, wireless access control, biometrics, visitor management, video surveillance, intrusion detection, AI analytics, and beyond.

IMRON Corporation's solutions have been deployed in thousands of sites worldwide.

Vision

We are committed to leveraging our expertise to contribute to the greater public good. Through our innovative solutions, we aim to empower individuals, protect businesses, and fortify the very fabric of our interconnected world.

Mission

Our mission is rooted in the values of integrity, innovation, and social consciousness. We believe that by upholding these principles, we can create a lasting impact that extends beyond the realms of business.

Company Overview

- Imron Hussain, our founder and president was the first to develop a fully integrated Windows-based application tying access control, video, and alarm monitoring in 1993.
- First to integrate to Mercury hardware
- Privately owned US corporation
- Early years, OEM software for:
 - Radionics / Bosch
 - Blick / PAC / Stanley
 - Quintron / AccessNSite
 - Open Options / ACRE
 - Video Insight / Panasonic
 - Matrix / ACRE
 - DVTel / Flir
 - Senstar / Magal
- Deployed across numerous locations worldwide, our installations span various sectors, including education, healthcare, commercial enterprises, retail, entertainment, transportation, and manufacturing.

Award Winning

Product Overview

One Solution to Do It All

UnityIS® Manages Best-of-Breed Technologies for Access Control, Video, Intrusion, and Visitor Management. By interfacing with disparate systems, customers can maintain their previous hardware investments and avoid the need for rip-and-replace scenarios. They can seamlessly expand with newer next-generation hardware and manage it all effortlessly from UnityIS®.

Web-based Solution

UnityIS® operates through a web-based platform accessible from any browser, eliminating the need for client-side software installation. The server can be hosted either in the cloud or on-premises, offering flexibility to users.

Agile and Flexible

At IMRON Corporation, we take pride in our commitment to listening to our customers. Our open-platform approach enables us to readily adapt to even the most challenging customer requirements.

Security & Safety Summits

Making the World Safer

In 2025, IMRON Corporation will host three Security and Safety Summits at three prominent NFL stadiums. Our dedication to addressing the issue of mass shootings in schools and workplaces drives us. These summits aim to increase awareness and disseminate advice from nationally recognized experts on best practices for preventing and mitigating such attacks.
