INNOVATIVE SOLUTIONS FOR A SAFER WORLD

AI VIDEO INTELLIGENCE

Add intelligence for security, safety, health, and operations to any IP camera and dozens of market-leading video management systems.

CYBER SECURITY

Add tools that measure network performance and provide vulnerability assessments that meet the NIST SP 800-53 technical standards.

OPEN API

Integrate third party software with our RESTFUL API that can be deployed on premises or in the cloud.

ACCESS CONTROL

Manage access control with advanced capabilities utilizing facial authentication, mobile credentials, QR codes, and more.

VIDEO MANAGEMENT

Manage disparate VMS and link them together with access control, visitor management, and intrusion.

VISITOR MANAGEMENT

Automate visitor processing and access to authorized locations with designated times.

PROACTIVE RISK REDUCTION

Prevent incidents before they happen by using predictive analytics, machine learning algorithms, and data visualization.
